

LOCAL AND OTHERWISE.

Several important probate notices appear
this week.

Justice of the Peace C. C. Ransom was
up from Panaca Tuesday on very important
business.

T. E. Edwards will discharge the duties
of the County Clerk's office during that
officer's absence.

Dave Jolly came in from Taylor Tuesday
with a first class outfit for hauling water,
which he will use at Ferguson District.

The wire for the Ferguson telephone line
will leave Milford today. Two weeks after
its arrival the line will be in working order.

All the recently purchased mines of the
Monitor-Jim Crow group at Ferguson are
surveyed and ready for application to
patent.

County Clerk Angelo Clark left for San
Francisco Tuesday, to be absent a month or
two taking in the Fair, and for general
recreation.

All the available timber within forty miles
of Ferguson district has been located in
anticipation of a rush of business at the new
El Dorado.

Cold enough here for overcoats and fires
on Monday last, and severe frosts are
reported from several places in Utah and
this vicinity.

Sunday's wind prostrated one of the tele-
graph poles back of Main street and broke
the wires. The wind that day was the
fiercest ever known here.

Word comes from all quarters that the
nearest and most satisfactory dye for color-
ing the beard a brown or black is Bucking-
ham's Dye for the whiskers.

J. R. De Lamar returned to Ferguson last
Monday and preparations for more active
work on the recently purchased mines there
will no doubt at once be made.

**JOB PRINTING in all its
branches, equal in style to
any, done at this office.**

Brewer Jobbimen has cleaned out the
rocks and pebbles from the road between
this place and the Highland brewery and it
now forms the best drive to be had out of
town.

The Midwinter Fair executive committee
has decided to cease all special attractions
at the fair after July 4th, and to take steps
to officially terminate the Midwinter exhibi-
tion by September 30th.

Milford expects over two thousand head
of stock to be shipped from that point to-
morrow. Eight thousand head have been
shipped within the past two weeks, two
or three train loads leaving daily.

The lessees of the Flagstaff property
under their new lease have driven the main
tunnel some sixty feet further into the
mountain, veering slightly to the north and
are daily expecting to again cut the Boss
ledge.

"Is this hot enough for you?" is a silly
question, but if you meet a man who com-
plains of suffering from the heat, ten to one
you will find on inquiry, that he does not use
Ayer's Sarsaparilla to tone up his system
and free his blood from irritating humors.

J. Eisenmann wishes to call the attention
of those desiring to build, to the fact that he
has just received a carload of glazed window
sash, all sizes; also panel, sash and screen
doors, together with white lead, paints,
oils and nails, which will be sold cheaper
than ever, but only for cash.

Six men arrived here Wednesday from
Ferguson District on their way north. They
say there are six men there for every job.
All are hanging on their eyeballs wait-
ing for De Lamar, and unless he puts in
an appearance soon there will be some
getting out of there.—White Pine News.

There is some difference of opinion as to
the character of celebration we should make
on the fourth this year. In view of the
general dull times a good many think that
the best observance we could make would
be to go off on a picnic. At any rate the
day is approaching rapidly and no steps are
being taken to have any display thus far.

One of the latest improved Phonographs
of the American Phonograph Co., will be on
exhibition here in a few days. Eugene
Goodrich has one en-route from the east and
is arranging for a general exhibition. If
you want to see one of the most interesting
inventions of the age and hear the latest
operatic and other airs, rendered from first
hands, patronize the exhibition.

A call is made in this issue for the mem-
bers of the People's Party County Central
Committee to meet for the transaction of im-
portant business. The principal point to be
discussed will be the question of affiliating
with the Silver Party throughout the State.
Many of the People's Party organization in
Lincoln favor this, since Lincoln is the only
County in the State in which a People's or-
ganization has been effected. We must all
pull together this year. Dissentions will
result only in defeat, while a strong front
will surely bring about success.

For family liquors go to Sam E. Wertheimer.

The Grand Lodge of the I. O. O. F. meets in
Virginia City on June 18th.

Prendergast, the assassin of Mayor Harrison
of Chicago, will not be tried until Fall.

A. S. Thompson has just received a car-
load of Salt Lake Beer, also assorted Soda
and Sarsaparilla, which he is offering at
reasonable figures and delivered free to any
part of town.

James Spurgeon nearly lost his right arm
in the sweep grinder at the Carson mill on
Thursday of last week. He was brushing
the machine, when the brush caught on the
ponderous roller, drawing the arm under it
and breaking the bone in the elbow.

As Max Schaefer was getting ready to
pull out for Ferguson district Tuesday
morning, a bystander called out to him:
"Are you going to write?" and the answer
came back, "You tam fool, you think I'm
going to write?"—White Pine News.

The Bullionville mill started up today.
The Howell roaster as remodelled, will be set
in operation to-morrow. The tailing pit will
be attacked first, though other business is
evidently looked for, as the pan and settler
capacity of the mill is being increased.

At the first indication of disorder, the
deranged of unfilled condition of the
stomach, liver or bowels, should be promptly
rectified by Ayer's Cathartic Pills. These
pills do not gripe, are perfectly safe to take
and remove all tendency to liver and bowel
complaints.

Miss Jennie Lachman of Reno, now en-
joying the sights of the Midwinter Fair,
attended a ball Thursday night of last week
in Oakland, and took the first prize for
being the best dancer in the hall. The
young lady was heartily congratulated and
at the conclusion of the last dance every one
cried out: "Hurrah for Nevada!"—Reno
Gazette.

Foster's forecast of the weather for the
balance of the month is as follows: The
storm wave will cross the continent from
June 14th to 17th, and the next will reach
the Pacific Coast about the 18th and cross
the Western mountains by the close of the
19th. The warm wave will cross the West-
ern mountains the 18th, the Great Central
valleys about the 20th and the Eastern
States about the 23rd. The next will be a
cool wave and will cross the Western moun-
tains about the 21st.

The latest gold find in this vicinity is re-
ported by Scott Allen who came in last
week from the south, bringing with him
some samples of iron stained quartz which
he had broken off, hap hazard, from a ledge
he had run across on his way from the south.
The appearance of the samples was not en-
couraging but assays showed them to run up-
wards of \$3000 in gold. Allen immediately
slipped out to locate the find, and to learn
its whereabouts is now puzzling and exciting
a majority of our local prospectors. It is
said to be south of, and some twenty miles
away from Helene. Two parties, well
equipped started on a hunt for the locality
yesterday from here.

Secretary Carlisle has another scandal on
his hands. It relates to the sale of the
Government building on the World's Fair
grounds, which cost \$400,000, and is said to
have been disposed of for \$3,275. The sale
was made through a Treasury agent, who
acted on orders from Washington, which
appear to have been given, without authori-
ty, by the supervising architect, in the ab-
sence of Mr. Carlisle. There has been some
talk of transferring the building to Atlanta
and re-erecting it for exposition uses, and it
is understood that the purchasers have
offered it for this purpose for \$25,000. They
would thus turn over the neat profit of \$21,-
725. The House Committee on Appropria-
tions has been aroused in this transaction,
and a thorough investigation is now in
order.—Kureks Sentinel.

The Salt Lake Tribune of June 5th, says:
"Last evening a tall, gaunt, gray-haired,
gray-bearded man and a handsome youth
with a ruddy face and slight, dark
mustache, attracted considerable attention
by walking about the business streets hand-
cuffed to each other. The police quickly
noticed the pair and came to the conclusion
that they were escaped prisoners and were
about to run them in when the tall man ex-
plained that he was Sheriff Turner from
Pioche, and that he was taking the younger
man from Pioche to the penitentiary at
Carson City, that they had arrived in this
city at six o'clock, and whilst waiting for
the midnight train, came up town to look
around the city and call on some friends,
and not caring to trouble any of the officials
to lock up the prisoner, had adopted the
plan of locking his left arm to the right arm
of the prisoner to prevent his escape. The
prisoner's name is John Neal, and he was
sentenced to a term in the Nevada peniten-
tiary for burglary."

Hymeneal.

On Tuesday evening last at the residence
of the bride's parents on Meadow Valley
street here, H. H. Cooper and Miss Flor-
ence DeFreiz were married by Justice of the
Peace C. C. Ransom of Panaca, in the pres-
ence of many of their numerous friends.
The bride was becomingly arrayed in regu-
lation white and orange blossoms. The
house-full of friends made up a pleasant
gathering and it was after midnight before
the guests dispersed first bestowing many
wishes on the newly married couple for a
happy and prosperous future.

Fire.

During the strongest of the wind last
Sunday the fire alarm sounded, bringing out
the town. The roof of Kline's saloon on
Main street was seen to be on fire, the
smoke whirling down the street from it in
considerable volume. The roof and sheet-
ing for some distance around the stovepipe
were burned, but how the fire originated is
something of a mystery as Kline says he had
no fire there for several days. Though the
fire failed to get what might be called a
good start yet pieces of burning shingles
ignited rubbish at two other points further
down the street and a sharp lookout was
kept for some time. Finally the fire depart-
ment gave the surrounding buildings a good
wetting down. A fire with a decent start,
fanned by a wind such as we had that day
would wipe out the town in an hour's time.

FROM REEVES.
Geo. B. Warren is moving his corral from
the Helene side to day.

With a gold camp, and things moving
along nicely, we feel like celebrating the
glorious Fourth here this year and may
arrange for a lively time.

While Helene may not be entirely de-
serted, it may come perilously near it, as
just now the bulk of its population are
thinking of moving to this side.

The April Fool owners continue work on
the new shaft near the boarding house and
are taking out ore. The shaft has now
reached a depth of about seventy feet and
shows up quite promisingly.

The thing most eagerly expected here is
the well drilling machine, since the princi-
pal thing lacking in the district is water.
The machine is now on the road from Salt
Lake and work with it will be rushed im-
mediately on its arrival.

Max Schaefer returned from Ely two days
ago with five loads of lumber and bar fix-
tures brought from his Taylor house. As
soon as he can get to work he will erect a
brewery at the Baker wells in Cedar Wash
about three miles from here.

The recent development work on the
Monitor-Jim Crow mines has turned out
well. A new tunnel started on the crop-
ping a few feet from the north-east corner
of the Jim Crow claim is now in some sixty
feet and pay ore is being extracted and piled
on the dump. This is on the Cliff location.
Near the new offices of the company another
tunnel is about to be started, the grading
already being done. This is on the Lucky
Bar surface and may prove to be the main
working tunnel of the group as it is easily
accessible and will tap the present ore de-
velopments at a depth of some three or four
hundred feet.

Everything indicates that Reeves will be
the permanent town of Ferguson District.
This is the conclusion arrived at since the
return of J. R. De Lamar and it has given
an impetus to improvements of every char-
acter. The principal difficulty now is the
scarcity of lumber. Only one mill is avail-
able and it is being crowded to its utmost
capacity. John Vetter's store and corral
are about ready for business. Chins Dick's
restaurant is completed all except the cellar.
H. H. Cooper has a dwelling on his lot all
ready for occupancy. Shier's drug store
14x20 is complete. J. W. Palmer has a
building 18x36 about ready to open as a
lodging house. D. A. Meikle's dwelling is
completed together with his blacksmith
shop. Jim Gibson is putting up a 16x22
foot house on his lot and T. E. Edwards has
completed an 18x26 foot stockade on the
rear of his lot and will build an 18x40 foot
business place on the front half, as
soon as lumber can be obtained. In addi-
tion to these a large number of tents are
up and occupied and the whole place presents
a scene of business.

are a financier, eligible to the United States

At a big mass meeting held in Pittsburg,
Pa., recently, the following resolution was
introduced and unanimously adopted by
7,000 people: "Resolved, That as it is a
declared crime to walk on the grass at our
national capital where it now stands, we
favor its removal out West where grass is
not held more sacred than human rights."

D. B. Robinson, first vice-president of
the Atchison, Topeka & Santa Fe railway,
tells a story on a Colorado editor which will
bear repeating. The quill-pusher referred
to was the owner of a weekly publication at
Leadville, which bore the amusing title of
"Get There Muldoon." The editor heard of
many people riding on passes and conclud-
ed to make an effort in that direction him-
self. According to Mr. Robinson, he made
known his desire. Not only did Mr. Robin-
son give him a pass over the Santa Fe, but
he presented him with an annual pass over
the entire system. The editor thought the
scheme worked exceedingly well. Some time
later, whilst glancing over his ex-
changes, he noticed that a certain baking
powder concern advertised in nearly every
paper in the United States except his. An
idea struck him. Other people rode on
passes and he got one, too. Other papers
got the baking powder "ad" and there was
no apparent reason why he shouldn't. The
next day he wrote the concern, stating he
would like very much to have the "ad" for
his paper. The lapse of a few days brought
the answer: "We will consider yours of
late date. Where does your paper go?"
On receipt of the above letter, the editor of
Get There Muldoon immediately penned
back a few lines as follows: "Dear Sir—
in answer to yours of to-day I would state
that my paper goes to Europe, Asia, Africa,
South America and all parts of the United
States, and it keeps me hustling night and
day to keep it from going to hell." Need-
less to say the baking powder "ad" ap-
peared in the next issue of Get There Muldoon.

OUR WASHINGTON LETTER.

Correspondence of THE RECORD.

WASHINGTON, June 6, 1894.
The Democratic Senators already deeply
regret having allowed the two newspaper
correspondents who declined to tell the
sources of the information they published in
connection with the sugar trust scandal, to
even stand a chance of being indicted by the
grand jury. The correspondents would like
nothing better than a trial in court, which
must follow if they are indicted, as it would
enable them to have witnesses called and
made to talk who would make it plain that
their charges represented only a small part
of the crookedness which has been going on
among Democrats, and who will never be
called by the investigating committee and
some of whom would refuse to answer ques-
tions for the committee if they were called.

Even with the easy methods of the in-
vestigating committee, which seems to be
largely dependent upon volunteer testimony,
the substantial facts in the charges made by
the newspaper men have been shown to be
true. Notwithstanding the copious explana-
tions with which the admissions were ac-
companied, there is no getting around the
fact that Senator McPherson, of New Jersey
speculated in sugar stock and made money
out of it; nor that the sugar schedule in the
present tariff bill was mostly written by
Secretary Carlisle. These facts as well as
that heavy Democratic influence was brought
by agents of the sugar trust to bear on
Representative Wagner, of New York, to
make him stop working to have sugar put
on the free list have been testified to by the
men named. This week some sensational
testimony is expected from the highly ad-
vertised wire manufacturer. Senator Hill's
resolution for open sessions of the committee
has stirred up the Senators, but it is not
probable that it will be passed. When the
Credit Mobilier scandal was being investi-
gated, more than twenty years ago, the Sen-
ate adopted a resolution instructing the
committee, which had been working behind
closed doors, to conduct the investigation
openly, but that is the only similar case
known.

Senator Manderson of Nebraska, while
making an earnest speech in favor of the
continuation of the sugar bounty of the Mc-
Kinley law, used language that should be
committed to memory by every member of
Congress, and which was all the more strik-
ing because it followed the cringing apology
of Senator Blanchard, of Louisiana, for sup-
porting the Wilson bill in the House with
its free sugar clause, and then after getting
in the Senate demanding protection for
sugar as the price of his vote. Senator
Manderson, after expressing the hope that
the selfish protection sentiment of the
Louisiana Senator, which proposes merely
to benefit a locality, would one day grow
into a sentiment broad enough to favor pro-
tection for all industries, said: "I vote
here, representing a prairie state, not only
for protection on beef sugar and on the pro-
ducts of the farm, but I vote for protection
to the loom, to the factory, to the foundry,
to the lumberman and to the miner. I do
not represent on this floor simply a part or
the whole of the state of Nebraska. I am a
Senator of the United States. And whether
I am in the other House as a Representative
or here as a Senator, 'no point up Utah' like
district or like state can contract my legisla-
tive powers."

Democrats are pretending to be very
much surprised because of ex-Speaker Reed's
assertion that silver and the tariff are ques-
tions which ought to be settled together,
but there is no occasion for surprise, as the
same idea has been advanced by prominent
Republicans before now. It is well known
that it was entertained by the late James
G. Blaine, and that it was included in the
results he expected from his reciprocity
policy. Senator Lodge in a strong speech
against the tariff bill took the ground that
the two questions were closely allied, and
Senators Cameron and Pettigrew have also
referred to the matter in their tariff
speeches. So it is nonsense to pretend that
Mr. Reed has made a new departure to
please anybody. He is traveling in good
Republican footsteps, as he usually does.

The Democratic Senators will be on pins
and needles until they see the sugar
schedule of the tariff bill formally adopted,
and in order to hurry up the vote Senator
Harris has ordered that the daily sessions
be continued into the night. It is probable
that a vote will be reached by the middle of
the week; also, that the schedule will be
adopted, all attempts to make any serious
breaks in the Democratic line having failed,
although more than half of the Democratic
Senators will vote directly against their per-
sonal opinions when they support the sugar
schedule, but the bargain has been made
and the dose will be swallowed. A report
obtained currency a day or two ago that
Mr. Cleveland was about to publicly repudiate
the tariff bargain engineered by Gor-
man and Brice, but there was no truth in it,
as Mr. Cleveland has been about as deep
into the bargaining as either of the Sena-
tors.
